## Battery Pack Edition Features

### Battery Pack Edition

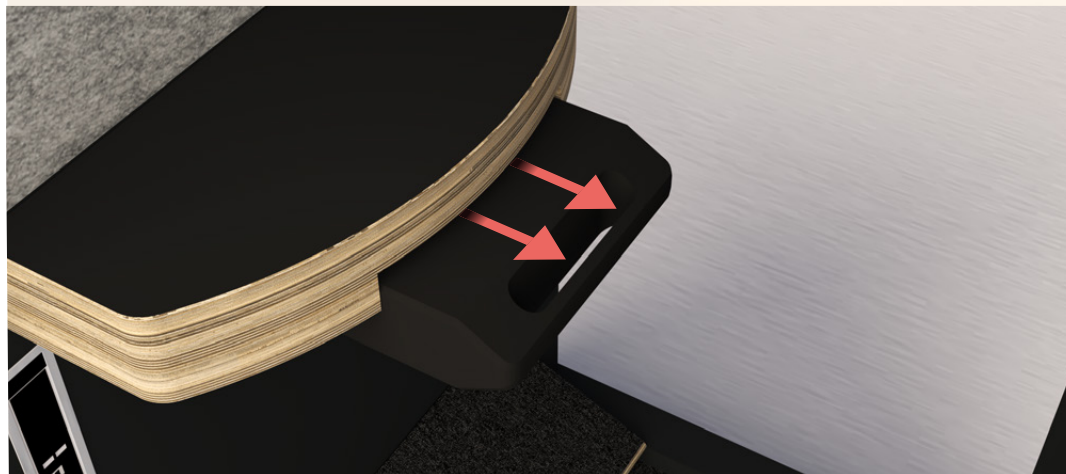

The Battery Pack Edition powers the booth so you can enjoy an autonomous unit anywhere. As soon as the battery is fully inserted into the docking station, your devices can be powered and charged straight away. The LED display shows the current charge level at the touch of a button.

- For open space offices and industrial environments
- A working space free from floor boxes
- Maximum mobility is in high demand and will continue with younger generations
- Move the booth without an installation team

### Available for phone booths
